 Office Action Summary	Application No. 10/780,611	Applicant(s) MIYAZAKI ET AL.	
	Examiner Thomas R. Hannon	Art Unit 3682	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent No. 6,010,247 to Mouri et al.

Mouri et al. discloses in figure 1 a bearing device comprising a pair of outer races, 12b, 13b each having an outer raceway on an inner peripheral surface thereof; a pair of inner races 12a, 13a each respectively having an inner raceway on an outer peripheral surface thereof; a plurality of balls 12c, 13c rotatably provided between the respective outer raceways and inner raceways; a cylindrical sleeve 9a on which said pair of inner races are fixed; wherein opposing axial end surfaces of respective each of said pair of outer races are abutted to one another; and wherein axial end surfaces of respective each of said pair of inner races are positioned facing one another with a gap therebetween, wherein the size of said gap S is adjusted to provide a desired preload to the plurality of balls. The sleeve 9a due to its hollow structure is inherently adapted to be mounted on a shaft. With respect to claim 9, the sleeve 9a is about twice the width of an axial length of the outer rings.

Claims 6 and 9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by JP10-318255.

Applicant's arguments filed December 10, 2004 have been fully considered but they are not persuasive. Applicant states "the cited references disclose only bearings that are mounted

Art Unit: 3682

directly on a shaft (i.e. without a cylindrical sleeve).” The claim calls for a sleeve which is “adapted to be mounted on a shaft”. As noted in the rejection, the hollow structure of the sleeve of the prior art anticipates this language, as it is readily adapted to be mounted on a shaft.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas R. Hannon whose telephone number is (703) 308-2691. The examiner can normally be reached on Monday-Thursday (6:00-4:30).
